What Is This Campaign?

Following is copy of minutes of the Belhaven State Convention of Disciples of Christ, of November 8, 1922: "The Board of Trustees through their President, George Hackney, recommended to the Convention that it appoint a commission to act in conjunction with the Board of Trustees to investigate the immediate needs of the College for buildings and endowment and that it give the Trustees power to act on the findings of the Commission. After several stirring addresses in favor of this recommendation, the Convention voted hearty approval."

This Commission reported at the Raleigh State Convention of Disciples of Christ, November 6, 1923, and its report, which follows, was unanimously adopted:

"Your committee, after full investigation of the educational situation as related to our brotherhood of the State, finds that in order to maintain Atlantic Christian College as a Standard Senior College with sufficient cash endowment and maintenance and improvement, we therefore recommend the following:

Recommended—

(1) That we secure an additional fund of $300,000 of ultimate endowment for Atlantic Christian College.

(2) That $19,000 per year maintenance income, including gifts of churches, be provided.

(3) That this campaign be area-wide.

(4) That pledges be secured from both individuals and churches.

(5) That the pledge be a five-year maintenance pledge, with annual payments, and when possible that these payments be interest payments on a principal sum, the full principal to be paid at the end of five years, or if possible a pledge for endowment on which an annual payment is to be made, and that gifts through annuities or wills will count on the campaign.

(6) That a Steering Committee of five (three making a quorum) from the Board of Trustees be appointed to direct the campaign, and be authorized to secure the necessary field force, national or otherwise, and that the campaign begin not later than January 1, 1924, and that a general Advisory Committee be appointed by the Steering Committee, to be subdivided into District Advisory Committees.

(7) That the funds for improvement and betterment be secured outside this projected campaign.

(8) That the necessary expenses be in addition to the sum mentioned in the goal."
